SUMMARY

I am a dedicated *Full Stack Developer* with strong expertise in both *front-end and back-end technologies*. Currently pursuing a *B.Tech in Computer Science*, I have honed my skills in various programming languages and development tools. I possess a solid understanding of software development practices and have hands-on experience in building applications, highlighted by my project '*Reusebook*'.

PROJECTS

Reusebook App — Personal Project

Flutter / Node.js / Express.js / Rest API / MongoDB

- Built an interactive Android app for students and shopkeepers to buy/sell used books.
- Implemented JWT-based authentication, password recovery, and multilingual support.
- Used MongoDB for data storage and bcrypt for securing user credentials.

Personal Portfolio Website — Personal Project

HTML / CSS / JavaScript / Tailwind CSS / Bootstrap

- Designed and developed a responsive personal portfolio to showcase projects, skills, and achievements.
- Implemented smooth navigation, modern UI with Tailwind CSS, and interactive components for enhanced UX.
